The Breast Cancer Action Group NSW provides a voice for people affected by cancer in our state. Formed in 1997, our approx 730 members live all over NSW. Membership which includes our quarterly newsletter is free.

We aim to make a difference in the areas of diagnosis, treatment, care, support and research, and work in partnership with all stakeholders in the breast cancer world. We also provide a forum for women and men to share experiences and information.

UPDATING YOUR ISSUES, IDEAS, CONCERNS 2010

Each Year we ask you to let us know about specific issues you would like BCAG NSW to put on our agenda for making a difference for people with breast cancer. Please use the space below to advise us of issues or projects that have come to your attention this year which you would like BCAG NSW to take on board, Those previously sent have been incorporated into our program. This is an important way for us to ensure that we are reflecting the real needs and concerns of people affected by breast cancer in NSW. Please let us know—it is not necessary to be making a donation at the same time !!

The issue which our members have given priority to date fall under these broad headings:

- Better access to quality care
- Better access to reliable information
- A patient focussed cancer care system
- Better access to cancer drugs
- Better survivorship and support assistance
- Other Breast Cancer related issues
